Don't forget to take water and all the essential things with you. Check it before you start down the trail

Because there is not any kiosk or bar on the beach. Please make sure you have cleaned after yourself when you are going back.

A must-visit beach. Very beautiful natural resort. Wide and clean. Covered with small pebbles giving it crystal clear water. Not easily accessible: you leave your vehicle 800 meters away by the road, and you get down from the hill on foot--forget of using anything with wheels like bicycle or baby carrier on the narrow and rocky trail. The descent takes about 15 min, but beach is worth the effort.
