Solhejdan is a rather small and family-like naturist campsite where it is easy to get in contact with others and socialize in a relaxed way. "Our" naturist beach is located about 600 meters out in the sea on a small strip of land called "the reef" and we also have a nice heated swimming pool on the grounds.

We have guest-kitchen for tenters, sauna, barbecue area, boules court, playgrounds, football field etc. We have also a small kiosk where you can have an ice-cream as well as some simple snack food.

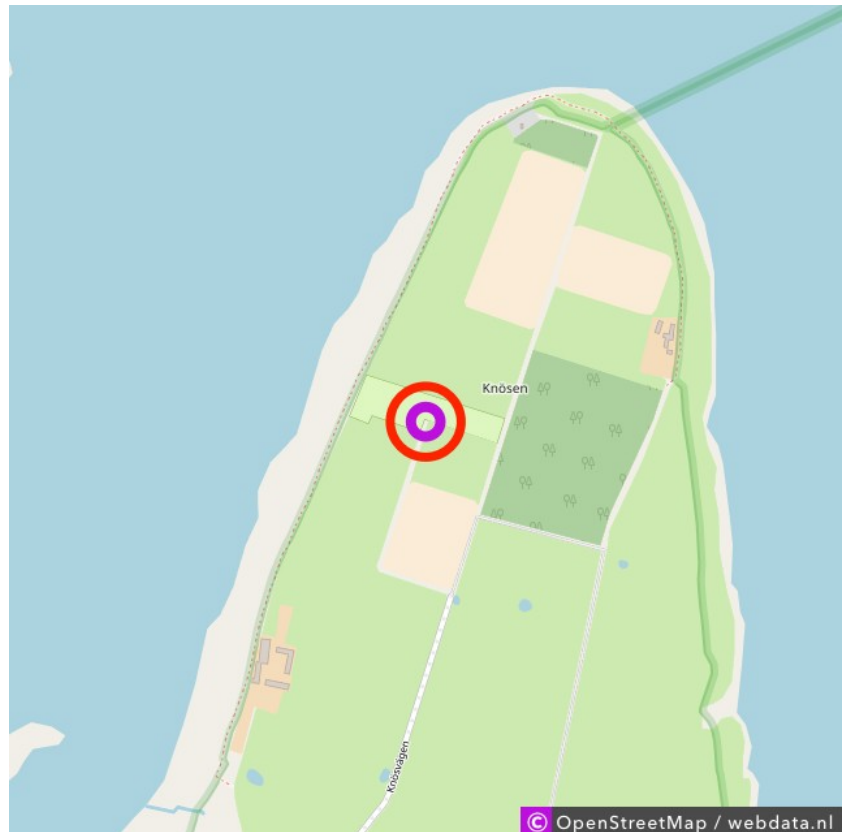

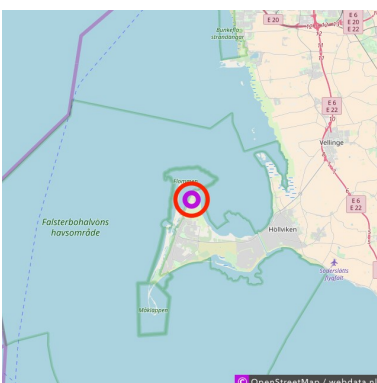

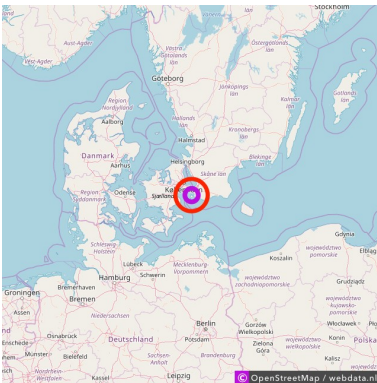

Solhejdan is run by the naturist organisation Svanrevet and is an accredited camping ground offering program and activities for the whole family at the same time. Members in Swedish and international naturist organisations are offered discount on the camping rates.
